

IGLC21 KEYWORDS

The following keywords provide the selection of words relating to Lean construction. They are arranged under generic words and words particularly (but not exclusively) associated with each of the research themes.

Authors are requested to select at least one but no more than five keywords from this list and can add their own keywords to a maximum of seven in total.

Generic Keywords:

benefits realisation	last planner system	re-entrant flow
big room/obeya	flow	standardisation
collaboration/collaborative	integration	value
complex/complexity	kanban	value stream
concurrent	transformation	variability
continuous	process	visual management
improvement/kaizen	production	waste
lean construction	pull	work flow

Themed Keywords:

<i>Contract, cost management</i>	<i>prefabrication, assembly,</i>	
<i>alliancing</i>	<i>open building</i>	<i>production system design</i>
<i>cost led procurement</i>	<i>customisation</i>	<i>inventory control</i>
<i>integrated form of</i>	<i>manufacturing</i>	<i>job-sequencing</i>
<i>agreement</i>	<i>tolerance</i>	<i>logistics</i>
<i>open book</i>	<i>flexible</i>	<i>work structuring</i>
<i>relational</i>		<i>work in progress/process</i>
<i>target cost</i>	<i>product development,</i>	
<i>transactional</i>	<i>design management</i>	
	<i>choosing by advantages</i>	<i>safety, quality,</i>
	<i>set based design</i>	<i>environment</i>
<i>people, culture, change</i>	<i>Target Value Design</i>	
<i>action learning</i>		
<i>collaboration</i>	<i>production planning, control</i>	<i>supply chain management</i>
<i>commitment</i>	<i>buffer</i>	
<i>language/linguistic action</i>	<i>constraint analysis</i>	
<i>perspective</i>	<i>look ahead</i>	<i>theory</i>
<i>promise</i>	<i>make ready</i>	
<i>trust</i>	<i>time compression</i>
